RADIO — A ROAD TO FAME

Discovery, Exploration, Hard working, and Inventing, are among the many roads to fame, but as you can see, all those ways are hard work.

Now, there is a way, in which all one has to do, is to step up to a microphone, and either talk, sing, play an instrument, or take part in any other form of entertainment, and if you are good, it will be like becoming famous overnight, for you will be called upon to display your talent on many different programs.

Amos'n'Andy, with their comic talk, Rudy Vallee, with his crooning, Lowell Thomas, with his commentating; those Gillette Gentlemen, Billy Jones and Ernie Hare, with their songs and chatter; Graham McNamee, and many others, have just stepped up to the "mike" and reached fame over night, and also a few thousand dollars for advertising.

They did it, why can't you? It was easy enough for them to.

And as a last word, that if it wasn't for Radio, all those that have been mentioned, and more, probably wouldn't be as famous as they are today.

BATHING

It will soon be time for salt water bathing, when the old "bugagoo," relative to rules and regulations, will again present itself. It seems reasonable that no set rule can be adopted for bathing apparel for any one season as the styles vary in quantity and quality from one season to another so quickly that a Parisian stylist in person would not be able to keep pace with it.

However, the rules regarding dressing and undressing in automobiles and parading the beach walks in scant attire can be made steadfast and proper and should be strictly enforced.

During past seasons, it was common occurrence to see hordes of young people scantily and far from neatly attired, in wet suits and dry, with bare feet none the worse for soap and water, trudging up and down principal shore resort sidewalks.

No matter what other shore resorts allow this coming bathing season, we should see to it that our own bathing beaches are wholesomely regulated; which they no doubt will be through efficient Police supervision.

Fans' Part in Religious Work
During the Middle ages in Europe, fans played an important part in religion. They were waved over the priests' head while they said mass to keep away the flies which represented the devil. Later, fans were supposed to yield divine influence, their to-and-fro movement symbolizing the wing of the seraphims.

Penniless Widows Rented
Almost up to the Nineteenth century in Massachusetts, penniless widows were rented out as servants for a year at a time to the highest bidder, sometimes for as little as 18 cents a year, their only compensation being room and board, because the state could not afford a poorhouse.—R. C. Dickey, Nashua, N. H., in Collier's Weekly.

THE BOOK-CASE

by
MISS LOTTIE E. STREET
Librarian
Hagaman Memorial Library

There are no new books this week so I have just a poem for you, one worth remembering.

An April Adoration
Sang the sunrise on an amber morn—
"Earth, be glad! An April day is born.

"Winter's done, and April's in the skies,
Earth, look up with laughter in your eyes!"

Putting off her dumb dismay of snow,
Earth bade all her unseen children grow.

Then the sound of growing in the air
Rose to God a liturgy of prayer;
And the thronged succession of the days

Uttered up to God a psalm of praise.
Laughed the running sap in every vein,
Laughed the running flurries of warm rain,

Laughed the life in every wandering root,
Laughed the tingling cells of bud and shoot.

God in all the concord of their mirth
Heard the adoration-song of Earth.

"John, I'm sure I heard a mouse squeak!"
"Well, do you want me to get up and oil it?"

The story is told of a salesman who called upon a big business man at the close of a busy day. When the salesman had been admitted the big fellow said:
"You ought to feel highly honored, young man. Do you know that today I have refused to see seven men!"
"I know," said the salesman. "I'm them."

The preacher was out on the golf course and thought a small moral lesson might not be amiss. Minister (mildly): "I notice that the players who get the lowest scores are not those who swear."

Gloomy Golfer (as he dug another slice of turf): "What the hell have they got to swear about?"

Lawyer to Colored Prisoner: "So you want me to defend you, Mose. Have you any money?"
Mose: "No, but I've got a mule, a few chickens, and a hog or two."
Lawyer: "I think I can take your case. Let's see—what do they accuse you of stealing?"
Mose: "Oh, a mule, a few chickens and a hog or two."

Prince Edward Island

Prince Edward Island is probably the first part of Canada touched by Jacques Cartier in his voyage to the New world and almost from that time it appears in the early story of Canada. It was first occupied by the French, who have left their mark upon it in the nature of old fortifications and the considerable Acadian population still found on the island.

What's What In BUILDING CONSTRUCTION

An open forum for the discussion and explanation of construction and material problems
By Walter R. Shiner
Reg. Architect, State of Conn.

Small House Economy

When building the small house costing from four to eight thousand dollars, economy is necessary in order to obtain all the required modern accessories and still keep within the budget.

It is the architect's function, and shall I say "duty" to see that this is accomplished. Sometimes the owner is forced to go to considerable extra expense through purchasing property that needs a lot of fill or that is rocky, with a contour making it necessary for the architect to design something special to conform to it. This may be avoided by selecting the architect early, and by telling him your requirements, he will be able to advise you as to the suitable property and location.

The general floor plan layout is a vital factor controlling the cost, the square house being the most economical. In any case, the plan kept within the rectangle without extra corners, (the old Colonial box type for example) will be found most economical and will give the most room for the money. A square 50 x 50 feet has an area of 2500 square feet and it is 200 feet around it. A rectangle 25 x 100 feet has the same area but it is 250 around it; therefore a house built to this rectangle instead of a square will have 50 feet more of exterior material and finish, than the square house.

Naturally, the more a house is cut up, the more it will cost in proportion and the more difficult it will be to design rooms without ceilings cut, etc. It is up to the owner to judge just how much he is willing to sacrifice along these lines for exterior design effect.

In designing for economy, the architect should also look to economy of upkeep, using materials that will not rot out and that do not require periodical painting. Design should be simple, keeping away from cut up roofs where expensive flashing is required and there are chances for leaks.

Rooms should be planned of proper dimensions for use of commercial sized rugs or to accommodate rugs of the owner, and also to accommodate furniture or other items which the owner intends to use in the new home.

The points of the compass should be considered, rooms planned in proper relation to the sun, and to the outlook.

Location on the lot is a vital point and should be studied. On a narrow lot, where the house will be close to that of the neighbor, it is wise to plan so that the maximum privacy is obtained. Location from the street, front, sides and rear yards are more or less regulated by the zoning and building regulations, but these can be varied somewhat to suit conditions and the driveway may be on either side, depending on proper house setting and garage location.

"Flying Fortress" Is Last Word in Air Fighters

Uncle Sam's giant "flying fortress" attracted plenty of attention after arrival at the general headquarters air force base at Langley field. This giant Boeing bomber, multi-motored, heavily gunned, all-metal—and mighty speedy—is the last word in air fighters.

HIGH SCHOOL NOTES

Debating Teams

The affirmative debating team consisting of Janet Daniels, Sylvia Abrams, Helen Malone and Nelson Smith, alternate, were defeated by the Bedford Junior High School (Staples) at Westbrook, Connecticut last Saturday evening by 140-135 points.

The negative debating team consisting of Helen Orlando, Louise Didow, Clayton Buttstead and Nelson Smith, alternate debated the Enfield High School affirmative of Thompsonville to a 2-1 decision last Monday evening in the auditorium. The judges for the debates were as follows: Miss Helen L. Dood, of West Haven High School, the Reverend Francis Smith of Branford, and Mr. Edward Brennan of New Haven. Miss Louise Scott was coach, Mr. F. Meredith Cooper, assistant coach, and Mr. Fred Clemens, program chairman.

Senior Card Party

The Senior Card Party last Tuesday evening was a great success, and the biggest affair of its kind ever held in East Haven. Mrs. C. S. Johnson of High Street won the hospitality tray and Toastmaster and Miss Alice Long of Dodge Avenue won the colonial bouquet. Approximately \$200 was taken in at this affair.

The committee wishes to thank all who participated in making this affair the success that it was.

Classic Guild

On Thursday, April 22, the E. H. H. S. presented the Classic Guild of New York City in "Great Scenes from Shakespeare," in the auditorium, to a crowded audience. The scenes were taken from "Julius Caesar," "As You Like It," and "Taming of the Shrew." Miss Joan Beckwith, Mr. Stanley Cobleigh and Mr. Leslie Adams, Jr., were remarkable in the leads in a very entertaining program lasting one hour and forty-five minutes. The Guild travels the country to present these scenes.

The Hat-Box

Evening Turbans
While glancing around a shopping center, recently, I discovered that which might be termed a practical evening turban.

It was shown in many colors but the one which attracted me most was in open blue, a very soft shade, the material being of soft silk crepe. From ear to ear, across the top of the crown was a heavy twisted roll of the crepe one inch and one-half in diameter. From the under part of the roll hung a very fine "swing-veil" in the same shade, with large velvet dots (as large as a ten-cent piece) in a deeper shade. Tucked half way under the roll at one extreme side, rested a very brilliant fan-shaped rhinestone pin. The effect was most pleasing. Some of the other colors were ashes of roses, maize, creme white and peach, all having the rhinestone trim except the one of ashes of roses which showed a pale pink rose-bud instead.

These little turbans seemed almost to remind one of a beautiful hand-painted picture or a sweet breath of romance.

**Miss Grace Moore
At Capitol**

On Sunday, Monday and Tuesday the Capitol presents Grace Moore and Cary Grant in "When You're in Love." Miss Moore has an inimitable voice, as she proves in her latest screen vehicle, by singing both opera and popular music throughout the picture. On the same program is "Find the Witness" with Charles Quigley and Rosalind Keith. A news and cartoon round out the program.
