Bussell Dinner Huge Success

The Testimonial Dinner in honor of Mr. Walter Bussell, at the New Haven Yacht Club, last Tuesday evening, June 29, was a huge success, at which over 100 attended. A steak dinner was served.

Page, only living member of the original Board of Finance; and Mr. Peter Molloy, member of the Board of Finance. A telegram from Mr. William Jaspers was read, who was in Washington, D. Those who sat at the Guest's Table were: Judge and Mrs. Reynolds, Mr. and Mrs. Walter Bussell, Mr. William Geenty, toastmaster; Father J. F. McTeague, Mr. and Mrs. Henry W. Antz, Mr. and Mrs. James Hines, First Selectman Girard W. Freer, and former Selectman John Howe.

Mr. Henry W. Antz headed the general committee.

Auto Reflectors Not Yet Needed

Autoists who are worrying about the legality of the reflecting devices on the rear ends of their cars can stop worrying for the present.

The State Motor Vehicle Department, which had previously announced that the statute requiring reflectors of an approved make would be enforced as of Thursday July 1, has not yet gotten around to making a complete approved list and has accordingly instructed police departments around the state not to attempt enforcement until such time as the list is complete.

The department, according to its announcement, will list all makes of cars carrying reflectors as standard equipment, together with the year of the first model carrying approved reflectors. Until publication of this list, enforcement of the law will be suspended.

Stone Church Groups Serve Dinner To Soc. N. Eng. Women

The Parish House Group, No. 1, and the Everready Group of the Old Stone Church here, combined to serve a turkey dinner to the New Haven Colony, National Society of New England Women, last Monday, June 28. The dinner was served following the meeting, at 1 o'clock, in the Parish House, with Mrs. Russell DeBaun and Mrs. Fred Beatson as co-chairman.

Following the dinner, an entertainment was presented. Miss A. Lauretta Plumley gave a lecture on "Indians," and Mrs. Anthony Serotti sang a group of Indian and Italian folk-songs.

Among those who attended from East Haven were Mrs. W. S. Coker, Mrs. Harley C. Backus, and the Misses Belle Backus, May Backus and Maybelle Backus.

The ladies of the two groups deserve a good deal of credit as they worked wonderfully together in putting the dinner across.

This was the June meeting of the Society.

Town To Celebrate Quiet Fourth

Due to the banning of fireworks here, a year or so ago, the town is expected to celebrate a quiet Fourth of July.

As far as is known, no permits have been issued and there are no bonfires scheduled within the town.

East Haveners will probably attend the bonfire at the New Haven Airport, sponsored by the Morris Cove Athletic Association, to be set off at 9:30 on Saturday, July 3, at which time 1000 barrels will go up in smoke.

Jack Tweed, manager of the Airport, is co-operating with the M. C. A. A. for the events which will include a band concert by a W. P. A. orchestra from Hartford, dancing and boxing bouts. At eleven p. m., Mr. Ed Sherman will make a drop by parachute from a Kitty-Hawk plane piloted by Bob Hart of the Viking Co. staff. There will be no fireworks.

Public buildings of the town will celebrate the holiday on Monday.

of Finance this evening in the Town Hall.

Riverside Fire Dept., No. 6, are holding a Carnival the latter part of this week in Short Beach Road.

Pepper

Paprika is made by grinding dried, ripe, red sweet peppers. It has a mild and pungent flavor. Cayenne comes from the Japanese chili pepper—an extremely hot small red pepper. What is commonly called "red pepper" is ground from the pods of other types of hot peppers; which are less hot than the Japanese chili.

LIBRARY BOOKS

It is all well and good to be able to go to the Public Library and take out books free of charge, but when the time comes to return them, and they are not returned, but allowed to run up bills of from two to three dollars on them at a time, then it is high time something must be done about it, as this is abusing the privilege.

One should consider oneself lucky that there are such fine institutions as free public libraries, and people should look upon the privilege of taking books as an honored one, and make it a point to return them on the date that it is due.

Of course, if one happens to run over a day or two, for not having finished the book on time, then there would be no complaint, as they would have to pay the two or three cents a day on it, which would not amount to very much that way, but after all there is a happy medium in this as well as anything else, and people should learn to abide by it.

So, those who have library books around the house, and especially those who have them long overdue, try to co-operate with the library and return the books on time, and do not let them run up bills on you so high that they cannot be paid, or you will lose one of the most treasured privileges allowed to you. This plea is more for your own good than that of the library, as it will save you shame and money in the long run.

The Largest Stadium
The largest stadium of all time is the Circus Maxims at Rome, built 605 B. C. It was 312 feet high, 1,875 feet long and 625 feet wide. At one time it held 150,000 spectators, but the capacity was increased to 385,000 in the fourth century A. D.

Camellia Native of China
The camellia is a native of China, India and Japan. It was introduced in Europe during the seventeenth century by a Jesuit, George Joseph Kamel, from whose name the Latinized word camellia is derived.

"Old Hickory" Jackson
Andrew Jackson had more striking characteristics than any man who preceded him as President of the United States. He often appeared in public wearing a military cloak and carrying a stout hickory cane by which he earned the sobriquet of "Old Hickory." Dressed in plain clothes, he rode to the capitol for his inauguration without an overcoat.

Blind Tom, Musician
Blind Tom, Thomas Bethune, a musical freak, was a negro slave in Georgia who was born blind and mentally deficient. He showed remarkable aptitude for music and after hearing a piece played once could reproduce it accurately on the piano. He also performed other musical wonders and was exhibited in various cities. After playing he would generally spring up and applaud himself. He died in 1908.

Facts About Nuts
Peanuts and pecans are native products grown in our Southern states, while Brazil nuts, filberts, cashews and pistachios are imported from foreign lands. Part of the confectioner's supply of walnuts is imported and the rest is grown in this country. English walnuts come from France and California, while black walnuts are raised in the United States. Almonds, although found in five continents, come chiefly from Spain and Italy. California also produces almonds, and Italy and Turkey supply filberts. Cashews come from India.

"What's the difference between a grass widow and a sod widow?" "Just a lot of dirt."

Unknown to the fat lady, the weighing machine was out of order. She clambered on and inserted a penny. Among the curious bystanders was a gentleman in his cups, who eyed the dial curiously. It registered 75 pounds. "Well, I'll be damned," he belch- ed. "She's hollow."

What's What In BUILDING CONSTRUCTION

An open forum for the discussion and explanation of construction and material problems
By Walter R. Shiner
Reg. Architect, State of Conn.

SUPERVISING SMALL HOME CONSTRUCTION

The purpose of this article is to point out if possible, the value of Architectural Supervision for the small home, and attempt to explain to the home owner what the various duties are and what to look for if supervision by an expert is not available.

Without proper plans and specifications, supervision is useless and it will be found very advantageous and economical in the long run to provide them. The are required for a permit to build, good plans rate a larger mortgage and if furnished to Banks and Loan Corporations, owners will find upon filing application for a loan that they will receive first consideration. Federal Home Loan Banks require good plans and also require supervision.

Good reliable contractors prefer to work from good drawings and specifications and also prefer supervision providing the supervisor is fair and just and knows construction. Nothing in the world rankles more in the breast of a competent contractor than to be instructed by a supervisor with little or no experience.

Under supervision, the architect obtains the estimates from the several contractors from names furnished by the owner, makes out the legal contracts himself or through his lawyer, makes scale and full size details of special work, interprets the meaning and intent of plans and specifications, sees to it that the proper material and labor is being used, makes out certificates of payments due the contractors, sees that a waiver of lien is furnished in order that the loan may be obtained when needed, keeps the owner notified when fire insurance is due, advises in all matters of design, decoration etc., adjusts extra items and when agreed upon gives written orders to the contractor for such extra work.

Kirkham Collection, At Library, Of Great Interest

Contains Civil Wars Relics of Rare Value This Is Two In Series of Articles Pertaining to Hagaman Library

Of much interest, at the Hagaman Memorial Library, is the Kirkham Collection of Civil War relics. Among the collection, collected by Mr. C. C. Kirkham, who was a Veteran of the War of the Rebellion, are a knapsack, which was carried by Captain A. P. Kirkham, during the war; a knife and holster, which was taken from a confederate officer, near Aquia Creek, on the Potomac River, by Mr. C. C. Kirkham, at the time he was paymaster on the gunboat "Satellite", in the year 1862. Among other things, collected by Mr. Kirkham, are a knife and holster taken from the Confederate Fort, Powhatan, situated on the James River, in 1861; a piece of a wheel from a gun carriage, taken from Cock Pit Point, following the de-

The Hat-Box

CHINESE LINEN HATS
The strikingly, charming Chinese linen hats are an ideal hat for dress occasions. They are also lovely for garden parties, afternoon bridge, luncheons, receptions, etc; and very attractive for street wear, if worn with silk prints or chiffon dresses. The extremely wide brims raised very high on one side set on a closely fitted band, the latter being made of the same shade of linen as the brim, making the effect very much like a Chinese Coolie Hat.

Around the half-inch high crown, is twisted fine cords in pastel shades crossed in front to form long ends extending completely across the front of the hat. They are very large and very light in weight, and charming if worn at just the right angle, and with just the right dress.

They come mostly in the very delicate of shades and white. When building your new home, contact Drazen Lumber Co.

Crises Breed Character
 In all lives there is a crisis in the formation of character. It comes from many causes, and from some which on the surface are apparently even trivial. But the result is the same; a sudden revelation to ourselves of our secret purpose and a recognition of our, perhaps long-shadowed, but now masterful, convictions.
