

Cemetery Assoc. Reorganizes For Plot Improvement

New Officers Elected

At a reorganization meeting of Green Lawn Cemetery Association, Inc., held on March 25, which was well attended by lot owners, plans were made to improve the cemetery in Tyler street, between Chidsey and hemingway avenues, by a vote to amend the charter to include all cemetery property.

The original charter, drawn up in 1912 as the Green Lawn Cemetery Association, Inc., by lot owners, stated "for maintenance and care of property which has been disposed of and now controlled by individuals." After due consideration at the recent meeting, the charter was amended to read "to receive funds, the same to be used for maintenance and care of Green Lawn Cemetery and lots therein, and to make and force regulations for maintenance and care of said property."

The cemetery was established in 1850 by Samuel Forbes but was not chartered until 1912. Although many lots have been sold the Forbes family still holds title to all unsold portions of the cemetery.

Officers Elected

Newly elected officers of the association are Mr. William Whaley of New Haven, president; Mrs. Zeal Beach, vice-president; Mr. Leroy Chidsey, secretary; and the Second National Bank of New Haven, treasurer of the trust fund. The Board of trustees include Mr. Whaley, Mrs. Esther Forbes of Stamford, Mrs. Mellillo, Mrs. Zeal Beach, and Mrs. George MacKenzie. Mr. Chidsey is agent in charge of property for the trustees.

An improvement committee of the following was also elected at the recent meeting of Mrs. Zeal Beach, chairman; Mrs. Oberle, Mrs. Russell, Mrs. Kelsey, Mrs. Conklin, and Mrs. Whaley, who will contact lot owners for funds for needed improvements and contributions to the trust fund.

Lot owners are urged to communicate with Mrs. Beach at 191 Main Street (tel. 4-0545) in order that the records may be corrected and improvements started.

Drawing

The Ladies Auxiliary of Harry R. Bartlett Post, No. 89, American Legion are sponsoring a drawing for a hand-crocheted tablecloth to be held in the Legion rooms on Friday, June 17, 1938. Tickets may be procured from members of the Auxiliary.

"This is to certify that the undersigned did on the first day of May, 1937, appraise certain property of Olson, Incorporated, located in the Town of East Haven, County of New Haven, and State of Connecticut, formerly known as Burton D. Potter property through which property the State of Connecticut intends to construct a State Highway, which appraisal was made for the purpose of estimating what damage will be suffered by said Olson, Inc., if said proposed highway is constructed through said land, said highway being 150 feet wide and approximately 1200 feet long; and after considering said matter, we have come to the decision that said Olson, Inc., having developed said property for use as building lots and having already constructed certain cellars on said premises, laid out streets, filled in parts of said property and otherwise improved the same, has suffered the following damage: eighty-two hundred dollars.

Dated at New Haven, Conn., this 3rd day of May, A. D. 1937."

The above document has been signed by William B. Kelly, Francis T. Wade, and Thomas F. Clarke, of New Haven, prominent real estate firms.

Cellars Not Included

Despite the fact that Olson, Inc., received \$8,900 from the State for the property, the above document does not include the appraising of the cellars constructed by the firm which would amount to an additional \$1,400, making a grand total of \$9,600, seven dollars over the amount paid to Olson, Inc.

East Haven's First Librarian

By Donald V. Chidsey

Following the announcement of the retirement of Miss Lottie E. Street, founder of the East Haven Public Library and for the past ten years Librarian of the Hagaman Memorial Library, the Board of Directors voted that an historical sketch be prepared of Miss Street's service with the library.

In order to more completely present this account it has been necessary to trace the advancement of the public library in East Haven. The writer has endeavored to interweave the activities of Miss Street with the activities of the institution.

Miss Street, the present Librarian-Emeritus, in 1909 received a communication from the State Library Committee, advising that out

of the 168 towns in Connecticut, East Haven was one of the 15 towns without a public library. The State offered to furnish a case of books if a place and a responsible person to take charge, could be found. The Town of East Haven granted the use of a small room in the Town Hall and Miss Street agreed to take charge in person. The East Haven Library started according to the records on July 1st, 1909. At the Annual Town Meeting held in October of that year, the library was recognized, a vote taken to support it and a Board composed of nine directors appointed.

At the first meeting of the Board held on October 23rd, 1909, Miss Street was elected the Librarian.

The library started with a case of one hundred books loaned by the State which were kept for three months and then returned for another set for three more months.

The library was established in the cloak-room of the second floor of the Town Hall. A closet was built for the books and a table and a few chairs made up the rest of the furnishings. First Selectman John Tyler was instrumental in having the Town provide Miss Street with a new gas lamp which represented the lighting facilities. The State also supplied a simple card index system for record purposes and the Board of Directors voted approval of the purchase of a date stamp and a library stamp.

FARM RIVER BRIDGE

The bridge over Farm River to have been built by Olson, Inc., at a much less figure was to have been built at the end of Tuttle Place whereas the proposed bridge to be constructed by the state is to be the width of the proposed cut-off and necessarily more costly.

The State Highway Dept. is acting wisely in this matter and has taken this step now as the initial step in a definite project which will surely be carried to completion in the near future. In so doing it is protecting the public against excessive expenditure which would have been caused by the construction of new houses in the proposed right of way.

The State Highway Dept. is versed in conditions of this sort and does not intend to be caught napping at the expense of the public.

The cut-off will eventually be consummated in line with those already completed such as Branford and Milford, and agitation by civic bodies and others against the project notwithstanding, and will be a good move in the line of modern progress.

The State Highway Dept. must have made a temporary layout, otherwise it would not have known where to build the bridge or what parcels of land to purchase from Olson, Inc. The price paid for the land was very reasonable and the price per acre as rumored is misleading inasmuch as the actual cost included damages, two complete house cellars already built, and a complete layout of the lots of Saltonstall Manor and surveying in connection with the same which of necessity had to be resurveyed.

Peattie, Prairie Grove

The "prairie grove," the subject of this book, is a grove of trees which was an island in a vast prairie sea in the state of Illinois. Mr. Peattie tells the history of this particular grove in a three part story. In the first he writes of the animals, the birds and the Indians—the primeval forest. In the second the Frenchmen come; trappers, soldiers and priests. Then there is a period when the history of the grove is unknown. Finally there is the story of the Goodner family which is really a novel in itself.

Mr. Peattie has a thorough knowledge of the country of which he writes being born within "telescope" distance of this very grove. He understands nature too and gives a very vivid picture of America's wilderness.

This is the eleventh edition of a standard work that was first copyrighted in 1882. Christopher Morley and Louella D. Everett are the editors. Although they have brought it up to date and revised it they assure us that the good old Bartlett has not Gone Modern too violently.

SUPERVISING SMALL HOME CONSTRUCTION

On all interior painting, be sure to have the master painter submit samples of the color before the second coat is applied. He can then match the sample on the second coat and if it is not satisfactory, he may then correct it when applying the final coat. Also instruct him as to whether the final coat is to be gloss, semi-gloss or flat finish so that he may plan his work accordingly.

Simple precautions such as these will make for satisfaction to the owner, while neglect of them will mean that the work is beyond correction and that it will have to be lived with for a long time, a daily reminder distasteful to the eye, disturbing to the senses.

E. H. H. S. Announces Baseball Schedule

Grammar Schools To Form Baseball League

By Ed Munson, Sports Editor

The East Haven High School baseball team has regular practise and seems to be shaping up well. Coach Maher has cut his squad down to twenty-seven players but intends to drop a few more before the regular season commences.

The first game, with Branford and the local team on opposing sides, will be played at East Haven on April 23, and not the 27 as previously announced.

East Haven will play one league game with each team in the Housatonic Conference and will also meet the four district outfits, Hillhouse, Commercial, West Haven and Hamden, in single games.

1938 Baseball Schedule

April 23, Branford, home; April 26, open; April 29, Shelton, away*; May 3, Hamden, home; May 6, Derby, Home*; May 9, Woodrow Wilson, home; May 13, Stratford, away*; May 17, West Haven, home; May 20, Wallingford, away*; May 24, Hillhouse, home; May 27, Mil-

ford, home*; May 31 Commercial, away; June 3, Seymour, home*; June 7, Milford, away; June 11, Branford, away*; June 14, Guilford, home.

Grammar School League

John C. Maher, East Haven's physical education instructor, has announced that three grammar school baseball leagues, similar to the recently completed basketball leagues, will begin play in the near future. It is hoped to follow the plan of the hoop league and have A, B, and C divisions. The A and B classes, made up of older boys, will play with the regular baseball while the C class will use a baseball sized softball.

The eight grammar schools will also run a girls softball league.

other softball league is about to get into action. It is intended to inaugurate a High School Intra-mural softball league patterned somewhat after the highly successful basketball loop.

These games like the cage games will be played during the lunch hour. Probably four games will be going on at the same time so that as many teams as possible will have a chance to play at least once a week. It is hoped to have two leagues with a play off between the respective winners at the end of the season.
