### ANOTHER TOWN WEEKLY

A subscriber of ours in Wallingford sent us this week Vol. 1, No. 1 of the Wallingford Post dated July 25. We were pleased to see that this busy, bustling town to the north of us is to have its own community weekly. We extend to the editors our best wishes for success in their venture. Their initial issue is a good one. It reveals skill in news-gathering and arrangement, a clean-cut editorial policy, and considerable advertising support from the business interests of the community. The typography is above the average of most weeklies that come to our desk.

Wallingford has, for too long, been without a community newspaper. It has depended upon the Meriden Record, a daily published in the city of which Wallingford is a suburb, for its community news and as an advertising medium. Such an arrangement is not completely satisfying. A community paper reflects the life of the people. It can become the guiding spirit of a community.

There have been other attempts at newspaper publishing in Wallingford. The new editors are cognizant of this, and have no doubt looked into the reasons for past failures and shortcomings with the hope of avoiding such errors in the future.

Say the editors—"We're a new newspaper, still groping for the pulse of the town. We know the uphill job ahead in providing accurate, timely informative material. But with a hard will to get the job done, we feel confident of steady growth. We've got the gumption to make it work."

Well said, Wallingford Post, we wish you well!

### PLAYGROUND PROGRESS

We received in the mail this week a letter from "A. Reader" which we quote as follows:

"Editor Stevens—What I would like to know is why hasn't the park on the corner of Thompson and Dodge avenues been completed yet? All that has been done is to plant grass and make a curb. Where are the other things that have been promised? This park was supposed to be for us kids and was supposed to be completed sooner than this."

Most of us have been wondering too about the apparent lack of progress down at the end of Thompson avenue. So we held a little "quiz" program with the Town Fathers and here are the answers. Two-thirds of the park property has already been graded and seeded and playing is being permitted there now and has been for some time.

Grading of the remaining area has been held up for lack of a grader. The town's grader has been waiting for necessary parts for some time and it has been impossible to borrow or hire another. This work cannot be done with a bull-dozer.

The labor problem is extremely bad and it has been almost impossible to get help to fully carry out the project. This is also true of materials and supplies for the improvements planned.

Of the \$10,000 appropriated less than \$2,000 has been expended to date, and the remainder is on hand waiting the time, may it be the very near future, when further improvement of the new War Memorial Park may be expedited.

### THE BANK COMES NEARER

East Haven may not hold much longer the doubtful honor of being the only town of more than 7,000 inhabitants in Connecticut without a community bank. All through the spring and summer season a committee of the East Haven Business Association has been holding meetings at least once weekly at which busy men have given of their time to further the establishment of a banking institution on our own Main street. Now, with mid-summer here, the committee is about ready to make its formal approach to the State Bank Commissioner for a charter. It would seem that every citizen of this town would want to have affirmative action given to this petition.

Supporting their plea will be the findings of a cross-section survey of the people of the town which were most revealing of the need here for banking services of all kinds. Ninety five percent of those who replied to the questionnaire said they would use the services of a local bank when and if one is established here. Forty percent said they would open commercial or checking accounts. Eighty-nine percent want to open savings accounts. Forty-one percent said they would support the institution by considering purchase of shares.

There is every indication that sufficient deposits will be accumulated and loans made in adequate volume to insure an earning basis. The proposed bank will have coverage of an area the population of which is approximately 17,000. Success would seem to be assured from the start.

### E. H. Legion Halts Wallingford Chicks

The East Haven Legion nine snapped the Wallingford Chicks winning streak at seven games when they edged the local nine 5 to 4 in ten innings at Light-house Park Sunday afternoon. Failure of the Chicks to hit in the pinches contributed to their downfall as they could get but four safeties off Poppendick, whose run-

wildness aided the Chicks in their big three-run first inning.

The Chicks played tight ball, although DiNuzzio was nicked for 11 hits, but a double play aided in keeping down the score. A crowd which jammed around the base line in the tenth prevented the Chicks from holding the Legion in check as with two down, N. DiNuzzio was hampered in attempting to catch a foul fly which would have retired the side. Afterwards a single brought home the winning run.

## Surplus Supplies Sought For Schools

Supt. Of Schools Gillis Goes To Rhode Island To Arrange For Equipment—Two Schools Being Painted.

Supt. of Schools William E. Gillis went to Danville, R. I., on Monday and Tuesday to attend one of the big sales of Army Surplus equipment and supplies.

The superintendent was seeking equipment to be added to the High school cafeteria, and considerable kitchen equipment had been advertised for the sale. The first day of the sale was open only to veterans, but on Monday and Tuesday public institutions were permitted to make offers.

Arrangements are also being made by the Board of Education to obtain office and school supplies of many kinds from army surplus sales at greatly reduced prices from

the regular market quotations.

This month the outside of Tuttle school will be repainted and the outside and a few of the inside rooms of Gerrish avenue school will also be repainted. This is a part of the summer program of school rehabilitation. Mr. Jorgensen and Mr. Coyle of the custodial staff have also been busy this summer repairing and refinishing much of the high school furniture. There have also been some minor repairs in the school buildings generally but most of the work aside from the two painting jobs has centered on the High school.

The entire office and custodial staff of the school system, with the exception of one emergency man who will remain on duty in the high school, will start on a two weeks vacation next Monday.

## Munsons Attend Convention In Banff, Canada

Mr. and Mrs. George E. Munson, of 23 Park Place, recently returned from a 12-day trip to Banff in the Canadian Rocky Mountains, where they attended the convention of the Acacia Mutual Insurance Company. More than 700 were present at the convention, coming from all parts of North America by special trains.

The Munsons boarded their special train at Washington, and enjoyed the many beauties of the trip across the continent to the far northwest a distance of approximately 2,900 miles. It was also the occasion of their 30th wedding anniversary.

Many side-trips had been arranged for the convention delegates and guests, in addition to the main trip, and these included a glimpse of many of the snow-capped mountain peaks, and the rocky gorges of the Mountain country. In British Columbia they also saw the picturesque Canadian Royal Mounted Police.

## Town's Road Oiling Program Underway

With 150,000 gallons of road oil ready to be applied, the annual summertime road oiling program of the town's highway department got underway last week. First to receive the going over was the streets in the Sallonsall section. Later the crew moved on to the Riverview area and from there they went to other sections. The job will continue until the highways from the Half Mile in upper Foxon to Morgan Point at South End have been taken care of.

The work was delayed until the arrival of a sandspreader which had been on order since last February.

## Two Teachers Appointed By School Board

At the meeting of the Board of Education on Friday, July 26, 1946 Mrs. Virginia Bowden of Port Deposit, Maryland was appointed to teach at the Gerrish Avenue School for the coming school year.

Mrs. Bowden graduated from Towson Teachers' College, Maryland with a B. S. degree and has had seven years experience in the elementary grades in Maryland. Mrs. Mary Melillo of 57 Main Street, East Haven was appointed to teach in the eighth grade at the East Haven High School.

Mrs. Melillo received her B. S. degree from Mississippi Southern College and has had four years experience in the West Lincoln High School of Bookhaven, Mississippi; Calhoun High School, Laurel, Mississippi and St. Martin's High School of Biloxi, Mississippi.

The Board of Education has completed its work on the drafting of the school budget for the next year and is submitting it to the Board of Finance.

## Democrats Nominate Three for Committee

The following letter was sent by the Democratic Town Committee by its secretary, Paul D. Bixby under date of July 20 to First Selectman James J. Sullivan:

My Dear Sir: My organization has been pleased to note your efforts in establishing a Committee to Welcome home to East Haven our Servicemen and Women. We believe this a commendable venture and one that has every chance for a successful culmination.

We trust you will feel free to call upon us and our facilities to further

## Presentation Is High Light Of Corps Meet

A grand feature, highlighting the state-wide meet and competition of Connecticut officers and drummers at the High school here Saturday afternoon and evening, was the ceremony in which the Branford Manor Pipe and Drum Corps was awarded a Government Certificate of Appreciation for its part in helping the morale of inductees at the New Haven area induction center during the war. Presentation was made by Major John T. Phillips of the U. S. Army.

The meet brought a big crowd of visitors to East Haven and Main street presented a colorful spectacle during the big parade of some 30 or more units which divided the evening from the afternoon program.

The Junior Ancient class was won by St. Brendan's corps of New Haven. The Junior Competition was won by St. Francis of New Haven, and the Senior Ancient Class was won by the North Branford corps.

The Junior competition was held in the afternoon on the athletic field, and the seniors competed in the evening in the High school auditorium.

## M. Sarasohn Nominated As Legion Head

Maurice Sarasohn of Sidney street was nominated to be commander of Harry R. Bartlett post, No. 88, American Legion at the meeting last Thursday night to succeed Commander Thomas Wells. Election will take place at the first August meeting.

Other officers nominated by the nominating committee are Thomas McMahon for first vice commander; Harold Doolittle for second vice commander; Hiram Myers for adjutant; Ray Desjardens for personnel officer; Brewster Bush for Finance officer; Rev. Father J. J. Broderick for chaplain; George Huddy for sergeant at arms and Walter Schrupp for historian.

It was voted at the meeting to give the annual swimming meet held each August by the Legion at Monauguin Beach, the official designation "Frank M. Dooley Jr. Swimming Meet" in honor of Legionnaire Dooley's splendid efforts toward making this annual swim meet a successful project.

This endeavor. We recommend the following men to aid you.

Mr. John V. Simon, 63 River Street, Mr. Armen K. Krikorian, 24 Wilanda Avenue, Mr. Paul D. Bixby, 105 Hemingway Avenue

We are sure that you will find these men well qualified to render valuable assistance.

Hoping to hear from you as we are anxious to see in operation the Community Spirit that we know exists in our Town.

## Former East Haven Dean Of Coaches

Howard W. Stepp Honored As Princeton's Man Of The Week During July 14-20.

"Town Topics", a weekly publication at Princeton, New Jersey, honored as its Princeton's Man of the Week, July 14 to 20, the chairman of the Princeton Development Council, Howard W. Stepp.

East Haven has a special interest in Princeton's Howard Stepp, because "Howie" is a native of our community, born and raised here, educated in our local schools, and a product of which the town may well be proud.

From Princeton's "Town Topics" we are pleased this week to reprint the following:

"Howard W. Stepp, chairman of the Princeton Development Council and director of the Princeton University Camp, who at 42—with 18 years of service behind him as coach of swimming—is dean of all active Princeton coaches. Recently named assistant director of the University Department of Intercollegiate Athletics, Stepp, ever widening the scope of his responsibilities, stands forth as one of this community's

most versatile members. A native of East Haven, Conn., and assistant to Yale's Robert Kiputh, the greatest of all American teachers of swimming, when he was summoned to Old Nassau, succeeded the late Frank J. Sullivan in 1928 and shortly thereafter Brokaw Pool became known as Stepp's Ocean. Has since sent his teams into 150 meets and they have emerged victorious from 122 of them or winning percentage of .787, one of the most sensational won-and-lost records in the century-long history of Princeton sports.

"Stepp's reputation transcends national boundaries. In 1937, Poland called upon him for assistance and, until war surged over Europe, he devoted six months each year to advising the Polish Government in Physical Education and Recreation as well as planning the Polish Olympic program. Former president of the New Jersey A. A. U., he is one of the wheelhorses of the various committees charged with the supervision of all swimming contests. "Acting Director of Princeton Athletics during the closing stages

Instructor, Born And Raised In East Haven, Has At Age Of 42, An Envious Record.

of World War II, his wartime achievements included two terms in the New Jersey Assembly, representing Mercer County; chairman ship of the State's Polish Relief Commission; membership on the New Jersey Defense Council; and supervision of vital American Red Cross activities. A trustee of the Princeton Country Day School and a power in County Republican circles, his efforts made it possible for the University Summer Camp to reopen this month at Blairtown for the benefit of 250 underprivileged boys from New Jersey and New York.

"For extending to returned servicemen the kind of inspirational leadership that led one ex-GI to say 'He is the main reason why I have come back to Princeton to complete my studies; for his readiness to lend a hand wherever he feels his support is needed; he is 'Town Topic's candidate for Princeton's Man of the Week, July 14-20, 1946.'"

Gen. Knox Says  
Every once in a while I say to  
myself Knox old boy why don't we  
get together and have our say about  
dogs and what a nuisance they can  
become when they are given a  
chance to be nuisances. And then  
I say well dogs are man's best friend  
and I like dogs and always have  
one tagging at my heels. But now  
dogs have their place and their  
place ain't barking around the  
neighborhood howling and pinning  
at the moon and keeping good folks  
awake all hours. And their place  
ain't rooting and digging all over  
everybody's lawns and gardens and  
shrubbery or out fighting with  
other dogs or romping up and down  
messing the sidewalks. No sir dogs  
can be a real joy to any neigh-  
borhood when they are taught to  
know their place and to behave  
themselves and that all comes  
from giving them the proper kind  
of understanding care. Now I have  
never considered the dogs really  
to blame for a lot of the trouble  
they make. Dogs are more or less  
like children in the way they are  
brought up. If they are let run  
wild and dirty and stay out all  
hours they run into trouble sooner  
or later. If they are taken care of  
and made to behave well usually  
they will behave. And it would seem  
to me almost the best thing if the  
dog warden were to take the owner  
instead of the dog to the dog-  
pound when the neglected and mis-  
treated dog misbehaves. A night in  
the dog-pound might make the  
owner of the dog a better master.  
East Haven it looks like has more  
than its share of dogs and we could  
get along with quite a few less of  
them. But most of the dogs I know  
behave if given half a chance.

There is humor and suspense in a swirl. Costumes are period.

Mr. Dolin is well-known in Connecticut, having opened in New Haven as one of the stars of Seven Days Arts. He is eminently suited to the role of Danny, having an English background, and since he just this season created the part of a homicidal dancer in "The Dancer on Tour" and on Broadway.

With Mr. Dolin at the Montowese Playhouse, Adele Buschman, leading woman of the company, appears as Olivia, with Kathleen Conneys as Mrs. Branson, Clark Williams, Bill Dixon, Joan Lawrence, as the unfortunate Doris, and others of the resident company.

The Montowese Playhouse has performances of "Night Must Fall" Tuesday through Sunday, August 6th through the 12th, at 8:40 P. M. with a Thursday matinee at 2:40.

Mr. Dolin will be remembered as the lyricist for "Bald for Americans, Bump Eyes, Cabin in the Sky and Polonaise. This year, his new version of John Gay's "The Beggar's Opera" is opening on the West Coast and will appear on Broadway after a cross-country tour. It has also been announced that his four ballets, written to music by Jerome Moross with a premiere this season.

The William Whiting adaptation of Mr. LaRoche's version is done in the Commedia dell'Arte manner, which has served fun so well for so many generations. In its new form, audiences are kept on their toes by the recurrence of actors in the roles, in the state, and on the rafters of the Montowese Playhouse.

Besides the star, Gino Caimi, the Playhouse is presenting such well-known players as Adele Buschman, formerly with the Old Vic, Harned Biro, returned from touring in "My Sister Eileen", Clark Williams, of New York, Joan Lawrence, formerly with the Neighborhood Playhouse, Arvo Wirta, and Frank Butler.

## Fat Collection Is Necessity

Ringling a 20 per cent increase in collections of used cooking fat in a contest run during May and June, the First National Stores, operating throughout New England and Westchester County, New York, are convinced that aggressive action by the man behind the meat counter results in larger turn-ins of used fats.

"First National Stores capitalized upon the fact that most women know fat salvage is the only way to alleviate the soap shortage, and turned their meat dealers into salesmen for fat salvage," points out the American Fat Salvage Committee.

"Putting aggressive personal salesmanship on top of the four-year-old educational campaign of government and industry seems to have proved the extra shove needed to get women in the habit of scooping, skimming and scraping every drop of household grease, and turning it over to meat dealers at regular intervals." The Committee states.

First National Stores meat departments competed with each other for prizes, which were awarded to those stores securing the largest amount of used fats per dollar of meat department sales in the four week period of the contest.

## Garden Notes

Sponsored by Branford Garden Club  
Mrs. M. D. Stanley, Correspondent

'Twas a lovely thought to mark the hours  
As they floated in light away  
By the opening and the folding  
flowers.

That taught to the summer's day,  
Fellela D. Hemans

The August meeting of the club will be held on Friday, August 2, at 1 P.M. at the home of Mrs. Arthur E. Alling, Pine Orchard. Each member will bring a box luncheon—their boxes to be decorated with flowers, fruit or vegetables. The decorations will be judged. All members are urged to attend—after the business meeting, an interesting program will be given. All plan to come!

That was a weeping beach tree I planted not a weeping birch, and

I fear it will weep no more, as I think the drought was too much for it, altho we gave it lots of water, perhaps it did not enjoy being so near the salt water. I am going to try something else.

Gardeners have always needed a book like "Guide to Pest Control" by Cynthia Westcott, well known and widely experienced expert, illustrated with the superb paintings of artist Eva Melady, checked for scientific accuracy by the Department of Entomology of Rutgers University, the book has everything of scope, arrangement and authority to make it invaluable to every gardener. The list of about 1,000 pests includes just about everyone likely to be encountered in any state. You will not, of course, meet them all. Only a relatively few can be expected in anyone's garden in anyone's year. But whatever may be the garden enemies you must fight at any time, you'll find them here with full clear information that will enable you to identify and control them. A handsome book 6x9 1/4 inches, over 600 pages.

Vernonia or speedwell as it is often called, rates high with gardeners as it gives height, which is so important to a well planned border. The plants grow rapidly and propagate profusely. Blue is the traditional color ranging from light through bright royal and violet blue. There is also a pink lavender and white. Blooming time

## Looking Ahead

FREEDOM of the press, even if there were room for it, but I am glad the Supreme Court surprised a lot of good people and set them studying and talking about this purely American liberty, freedom of the press.

I would not wish to review the case here, even if there were room for it, but I am glad the Supreme Court surprised a lot of good people and set them studying and talking about this purely American liberty, freedom of the press.

Safety IN THIS country, it is assumed that a man is not fit for public office unless he can take all the razzing and criticism that goes with it and still hold his temper and do a good job. Think how long a crooked official might stay in office if he could protect himself from criticism all the time, and yet encourage newspapers to magnify the faults of other men who ran for his office.

It is recognized by law in the United States that the people are entitled to know what goes on. Public information is for the public good. In line with this very principle, the Post Office Department

extends from April until October according to the varieties selected. Some of the more worth while Vernonia to consider are, Blue Spikes, Longfolia subsecellis, Splenda Rubra and Blue Peter. Rupescata and Incana are perfect for rock gardens. In Fall, after the flowering season, the plants should be divided and transplanted about a foot apart. If this is done vernon-

ias will increase in beauty year after year. Good, ordinary soil will suffice for planting, in full sun or part shade.

Prune old flower clusters from ever blooming climbers and polyantha roses, to encourage all season bloom. Give gladioli plants a thorough watering each week until blooming time. Stop pinching outdoor chrys-

THE LAW protects a publisher who makes known truths that are in the public interest. It is for the public good. When the keen lash of publicity strikes the corrupt deeds of public payrollers, let the hit dog yelp. The press is a vocation of checks and balances. Publishers have power they don't have to use, but if they use it they must use it for the public good.

Some day, I believe, these same checks and balances will control the powers of labor unions. Unions have done more to improve the living standards of the American people than any other organized movement. They have enhanced American freedom. The right of collective bargaining is as sacred as the right to vote, but some labor leaders have been known to abuse their power.

The famous Case Bill, with all its miscellaneous regulations for labor unions, almost passed but it is dead now. Many conservative thinkers will concede that it will be better if the unions regulate themselves for the public good, rather than having it done by law. Industrial peace must be achieved. Reform is inevitable. The workers can do it better than some bureau.

## Fourth Show At Guilford Galleries

The fourth show at the Guilford Greene Galleries opens August 6 and will continue through August 18, with water colors by Pauline Hopkins Stack and oils by Katharine G. Morton.

Mrs. Stack, secretary of the Paint and Clay Club of New Haven, member of the Connecticut Water Color Society and the Pen and Brush Club of New York, is well known for her water colors of the Connecticut scene. Her style is vigorous, well drawn and subtle in color.

Mrs. Morton, who has exhibited in New York and more recently in Palm Beach, is showing a varied group of canvases. These include small, lively pictures of the Goshen Fair, of Washoe Valley, of the Gulf Stream from a Florida breakwater, as well as character portraits and still life.

themums at the end of July, and give the plants an application of a complete plant food. When watering, do the job early enough so the foliage will dry before night fall.

Sow fresh delphinium seed as soon as it is available.

Oriental poppies that become dormant by the end of the month may be divided and replanted.

Start a compost heap now while lawn clippings, vegetable refuse, kitchen waste, etc., are most abundant.

Morning glories will bloom more freely if the growing tips are nipped out at this time. This forces the growth of side shoots, which will blossom profusely.

Both Mrs. Stack and Mrs. Morton are vitally interested in "people doing things busily" and in their paintings there is a feeling of activity as well as the very essence of the atmosphere in the location. These paintings make perfect gifts as well as serve as a gay reminder of a happy summer.

Thomas Hooker, newly appointed publicity chairman for the 1946 Boy Scout Financial Campaign met last evening at the Y.W.C.A. with representatives of this area.
