May 2014

Our next meeting will be on Wednesday, May 28th at 2:00 pm in the Hagaman Library DeMayo Community Room.

This month, local author Janet Barrett will speak about her book entitled *They Called Her Reckless: A True Story of War, Love, and One Extraordinary Horse*, about a mare acquired by U.S. Marines during the Korean War to haul ammunition to the front lines -- and, in short order, became the real-life warhorse of the Marine Fifth Regiment. Courageous and indomitable,

Janet Barrett

Reckless stood with her buddies for two years, saving many lives, raising spirits, and winning the love and respect of all who knew her – an incredible story of a horse forging a bond that enabled her to give so much more than anyone ever expected, and her Marines to return a love that continues to this day. The memories of many of those who knew her in wartime and thereafter, and 14 pages of photos, underscore why Sergeant Reckless is honored still.

Reckless - a horse that was so heroic during the Korean War, the US Marines officially promoted her to Staff Sergeant - an official honor never before or since bestowed upon an animal. She was not a mascot. She was an official military officer. And she was as well known as Mister Ed, Seabiscuit, Rin Tin Tin and Lassie in the 1950s. She was named as one of *Life* magazine's 100 most heroic people in a 1997 commemorative edition.

Reckless delivered ammo to the recoilless rifle platoon's firing sites. She would be led a few times and then could make the trip to and from the ammo dump by herself. During just one battle, she made 51 trips under enemy fire, most of them by herself. She also carried wounded troops to safety.

Flight by Elephant: The Untold Story of World War Two's Most Daring Jungle Rescue
 by Andrew Martin

During the Japanese invasion of Upper Burma, thousands of soldiers and civilians were forced to flee through the most forbidding conditions imaginable to the 8,000-foot high Chaukan Pass. The survivors—a group of tea planters and former soldiers—assembled groups of elephants to bring them to several stations set up in the Assam Jungle, but obstacles were daunting: monsoon rains, leeches, jungle disease, starvation and tigers. The dangerous river crossings were done by the elephant groups and their Mahouts. A pitiful number accomplished the trek over the Chaukan Pass, to be ferried across the headwaters of the Brahmaputra River to the relocation camp at Ledo, Assam.

I went to a bookstore and asked the saleswoman, “Where’s the self-help section?” She said if she told me, it would defeat the purpose.
